TypeScript, JavaScript, React

SUMMARY

Founding Frontend Developer with 15+ years of development experience and 4+ years of leading teams and mentoring people

EXPERIENCE

Lead Front-end Software Engineer   Aug 2021 – April 2024
HILTI Germany | TypeScript, ReactJS, MUI, Apollo, styled-components, Jest, RTL, CI/CD, Sentry   Kaufering, Germany
Power tools and Construction software corporation. New product - CrewCenter
- Spearheaded front-end development for a complex web application using React.js/TypeScript from scratch in a team of 20 engineers, ensuring high performance, scalability, and maintainability
- Contributed to HILTI's 100% growth in workforce management, exceeding customers' expectations, and expansion into markets such as Germany, Switzerland, Czech Republic, Austria, Poland, Italy, Belgium, France, and the USA
- Collaborated with product owners, designers, back-end engineers, and QAs. Took part in architecture discussions together with solution architects and product managers. Participated in planning meetings, daily standups, and other Scrum-related meetings
- Mentored 3 junior front-end engineers. Implemented advanced code-review practices
- Worked with product owners and translated design and functional requirements to technical solutions and implementation

Senior Front-end Software Engineer   Aug 2020 – Jul 2021
GlobalLogic | TypeScript, ReactJS, Redux, Redux-Saga, Jest, Enzyme, Storybook, Sentry   Kaufering, Germany
Client - Power tools and Construction software corporation HILTI. Product - On!Track 3.0
- Participated in the front-end development of a new generation of an asset management platform On!Track by HILTI
- Introduced a reusable components library based on Storybook implementation
- Increased customer satisfaction by 25% in 6 months by resolving a large number of bugs and updating the unit testing strategy

Senior Front-end Software Engineer   Aug 2018 – May 2020
GO Interactive!, Upwork | TypeScript, JavaScript, ReactJS, Redux, MobX, React Native, Jest, Enzyme, RxJS   Kyiv, Ukraine
Freelance contractor
- Worked with startups of different sizes and stages (STYLINDEX, Dobby, Uprightpose), led a full development cycle team of 5 people
- Developed customer-facing mobile applications based on React Native in the role of a founding software engineer
- Increased product sales by 8% in 3 months by introducing new features in the Uprightpose mobile application

Senior Front-end Software Engineer   Feb 2016 – Aug 2018
Accenture | JavaScript, ReactJS, Redux, Jest, Enzyme, CSS3, SCSS,   Riga, Latvia
Outsourcing giant. Clients - Mediaset Italy, VR Finland
- Contributed to front-end development for Accenture's clients, including Mediaset Italy (on-demand streaming service) and VR Finland (railways ticketing system), enhancing product features and resolving production bugs, leading to a 12% sales increase within a year

Front-end Software Engineer   Jul 2014 – Dec 2016
ZFort Group | JavaScript, CSS, jQuery, Gulp, Grunt, CSS-animations   Kharkiv, Ukraine
- Developed UI of CMS-based applications for various clients of ZFort Group in a team of 6 front-end engineers

Front-end Software Engineer   Sep 2007 – Sep 2014
ASP Global | JavaScript, jQuery, MooTools CSS, HTML, Gulp   Kharkiv, Ukraine
- Developed UI and CMS-based applications for various local clients of ASP Global in a team of 3 engineers
